

MEMORIES TO LAST A LIFETIME

Paul Gauguin
CRUISES

PAUL GAUGUIN CRUISES OFFER THE ULTIMATE HOLIDAY ADVENTURE

The *Stewards of Nature* program* invites guests aged 7–17, and their family members, to discover and value nature through hands-on, interactive learning.

Every day of the voyage, there is a combination of naturalist-led island and/or beach excursions, science activities, crafts, games, and other adventures. Depending on their itinerary, your children might learn about underwater life during a snorkeling excursion, go on a dolphin-watching expedition, swim with sharks and rays, play beach games and race hermit crabs, and learn what it means to be a *Steward of Nature*.

**Available on selected dates only.*

The *Stewards of Nature* program is offered aboard the m/s Paul Gauguin for children and teens aged 7-17, and their family members, during the Northern Hemisphere summer months and holiday season.

Contact Wiltrans International for more information regarding available dates.

While all of the activities on the itinerary are included for children and teens through the fee that reserves the program for them, family members are invited and encouraged to participate in most activities for the additional cost of the shore excursions.

Please Note: program must be reserved at the time of booking.
